Men who have lost a hand or leg in a saw-mill now get looked upon as military heroes by gazing upon a town wrecked by cyclones and remarking that the scene looks like a battle field.

There were five women to every man in Holyoke, Mass., and a fellow who started to open an ice cream saloon not long ago was waited on by a deputation of desperate men, who persuaded him to leave.

A manly little fellow of five years fell, and cut his upper lip so badly that a surgeon had to be summoned to sew up the wound. He sat in his mother's during the painful operation, pale, but very quiet, resolutely keeping back his tears and moans. In her distress the young mother could not refrain from saying, "Oh, doctor, I fear it will leave a disfiguring scar!" Charley looked up into her tearful face, and said, in a comforting tone, "Never mind, mamma, my mustache will cover it!"

"You don't go back on the craft," said the nautical looking tramp to his colleague, who divided a handful of broken victuals with him. "Not I," said the other tramp, "I'm to old a grainer for that." "You looked more like a nigger last night when you lugged off that clothes line." "And you look like a man of wore before I gave you some of the new clothes," the other tramp said. "Oh, no," replied this tramp, "I am only a fool and after, and I'm for and after anything I can get." "You should have said anything you can hold," gently corrected the other tramp. "You are as quick and sharp as a bark," said this tramp, "but your bark is worse than your bight." "Ha! say you so!" exclaimed the other tramp, and immediately bit off his ear. That's the kind of a rain he was.

### OUR INSIGNIFICANT EARTH.

It is only when we regard our globe as a member of the planetary system, and that system in turn as unit among the systems, that we realize how infinitesimal are its concerns and how relatively insignificant it is. We may for practical purposes treat the orbit of Neptune as the circumference of our planetary system, and the diameter of it therefore as about 5,486,000,000 miles. But if we could suppose all this vast plane converted into a solid disk, instead of being, as now, for the most part empty space, and if to it were then given, by some means or other, a slightly luminous surface, it would appear to an observer upon the very nearest fixed star no more portentous than a new shilling glittering in the sunshine would appear to an observer at a distance of somewhat over a hundred yards. In other words, it would want fairly good eyes to discern it at all. We may safely say then that the annual thermal loss of our own little sphere, though sufficient to melt 777 cubic miles of ice, would, even though multiplied by centuries of centuries, no more effect the temperature of space than the striking of a match would avail to moderate the climate of Siberia.—*Belgravia.*

### WHALERS' SUPERSTIONS.

At the present day it is the commonest thing in the world for whale fishers to burn an effigy in order to "bring luck." If a ship has fallen in a few whales the crew attribute their bad fortune to their having some unlucky individual on board, and by burning his effigy they believe that his malign influence is got rid of. The most unpopular man in the ship is generally pitched upon as the offending party. Sometimes two or three pictures are burned, one after the other, if luck is very bad, and on an average one is burned in each whaleship every season. The practice is a very old one, and is said to have taken rise from a similar custom which prevailed among the herring fishers of Banffshire, by whom it was introduced on board the Peterhead whalers. A century or two ago not merely effigies, but living men and women, were burned on suspicion of casting a blight upon the herring fishery.

### THE FIRST INDIAN CHURCH.

The celebrated John Eliot, Apostle to the Indians, established an Indian church in Natick Mass., in 1660. It was the first one of the kind in New England. Three years later, the Bible, translated by him into the Nipmuck language, was printed at Cambridge. This is the title: "Mamuzze Wunneetupanatamwe Up Biblum God Naneeswe Nukkone Testament Kah Wonk Wasku Testament." He also versified the Psalms in the same language. It is doubtful whether any person living can read this Bible.

This church, in 1670, consisted of nearly fifty members. During Philip's War, the praying Indians were removed to Deer Island, and the labors of this celebrated missionary were very much impeded. The oak-tree under which he used to instruct the sons of the forest is still pointed out at South Natick; and there a monument has been raised to his memory, on one side of which are the words, "Up Biblum God."

### IDLE EXPERIMENTS.

When a man is well and sound he can afford to be indifferent to the character of all the medicine in the world. But when disease is fairly eating him up he must do something at once and do it intelligently. Therefore, do not dose yourself with a hundred things in the hope that some of them may hit the mark, but try Dr. David Kennedy's "Favorite Remedy" which hits it every time. For kidney and liver troubles, piles and constipation, it is just what you want. Druggists have it, or mail one dollar to the doctor at Rondout, N. Y.

### HAUNTED ME.

A Workingman says: "Debt, poverty and suffering haunted me for years, caused by a sick family and large bills for doctoring, which did no good. I was completely discouraged, until one year ago, by the advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well and none of us have been sick a day since; and I want to say to all poor men you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost."—*Christian Advocate.*

KIDNEY-WORT
DOES WONDERFUL CURES WHY?
Because it acts on the LIVER, BOWELS and KIDNEYS at the same time.
Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary Diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia, Nervous Disorders and Female Complaints.
SEE WHAT PEOPLE SAY:
Eugene B. Stork, of Junction City, Kansas, says, Kidney-Wort cured him after regular Physicians had been trying for four years.
Mrs. John Arnall, of Washington, Ohio, says her boy was given up to die by four prominent physicians and that he was afterwards cured by Kidney-Wort.
M. M. B. Goodwin, an editor in Chardon, Ohio, says he was not expected to live, being bloated beyond belief, but Kidney-Wort cured him.
Anna L. Jarrett of South Salem, N. Y., says that seven years suffering from kidney troubles and other complications was ended by the use of Kidney-Wort.
John B. Lawrence of Jackson, Tenn., suffered for years from liver and kidney troubles and after taking "barrels of other medicines," Kidney-Wort made him well.
Michael Coto of Montgomery Center, Vt., suffered eight years with kidney difficulty and was unable to work. Kidney-Wort made him "well as ever."
KIDNEY-WORT
PERMANENTLY CURES
KIDNEY DISEASES,
LIVER COMPLAINTS,
Constipation and Piles.
☞ It is put up in Dry Vegetable Form in tin cans, one package of which makes six quarts of medicine. Also in Liquid Form, very Concentrated, for those that cannot readily prepare it.
☞ It acts with equal efficiency in either form.

The Sun for 1881.
Everybody reads THE SUN. In the editions of this newspaper throughout the year to come every body will find:
I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discovered the golden mean between redundant fulness and unsatisfactory brevity.
II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. Their story is more varied and more interesting than any romance that was ever devised.
III. Good writing in every colnmn, and fresh ness, originality, accuracy, and decorum in th treatment of every subject
IV. Honest tonument. THE SUN's habit is to speak out fearlessly about men and things
V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republica
VI. Absolute independence of partizan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which now exists. The year 1881 and the years immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.
Our terms are as follows:
For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.
The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.
The price of the WEEKLY SUN, eight-page, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free
